

Image number:

Long Beach, California

TITLE	<i>Harbor View</i>
LOCATION	Long Beach, California
DESCRIPTION	Mediating between the public and private realms of the city, this sculpture forms the entry to a residential, hotel and retail development along three blocks of Ocean Boulevard. Recalling the roller coasters of the historical amusement park which once dominated the city skyline, a four hundred foot arbor dips and soars between the boulevard and the new development framing the public space of Victory Park. Large lighting sculptures comprised of stainless steel and woven fiber optic cables flank the entry and highlight a new retail environment.
DATE	2002-2004
MEDIUM	Stainless steel sculpture lights and fiber optics, epoxy painted steel arbor
DIMENSIONS	Arbor-each section: L150'xW14'xH18', Lights: H22'xW5'
COMMISSIONED BY	Camden Development, Newport Beach, California
ENGINEERING	Prabhu Engineering, Los Angeles, California
GENERAL CONTRACTOR	IZ Construction
FABRICATION	Metal Morphosis
CLIENT/REFERENCE	Jorge Pardo previously with Corporation for Public Art, Long Beach, now with Los Angeles MTA
